**Vegetable Plants and
Vegetable Seeds for Your
VICTORY GARDEN**

The critical food situation in many foreign countries may continue until new crops can be harvested. To help alleviate the present condition Victory Gardens should be continued.

As the demand for seeds and plants will again be heavy, we suggest that you order your supply as early as possible.

Dear Fellow Gardeners:

Gardening is now on a peacetime basis. Gardening is the most peaceful of all pursuits. It is the most popular of all sports. It is enjoyed by far more people than hunting, fishing, baseball, football or golf. Tilling the soil is the most essential of all human activities.

Without the products of the soil, neither man nor beast could live. It is nice to contemplate that this most essential activity is the source of so much pleasure, recreation and health to so many people.

Vegetable gardening is most important now. We must ship large quantities of food to the unfortunate people of Europe, including children, who will starve this year if they do not receive food from us. We can not produce enough food, but every vegetable you grow will help.

As relief from the strain and sadness of war, there has developed a very widespread demand for flowers. This is encouraging as it is a signpost pointing toward the better things of life. Flowers have a refining and uplifting influence upon all who grow them or behold them. Every child should have the benefit and pleasure of flower gardening.

Bend every effort to have a garden of some kind this year. Plant for food and plant for beauty.

See us for material and information.

ORNAMENTAL TREES

For Shade and Beauty

Trees serve to beautify the landscape by
 framing the picture and directing the eye to
 the house and points of interest. They also
 provide the very necessary background
 against which the house stands out. They
 should never be planted without well con-
 sidered purpose. When carefully placed their
 play of shadow on the lawn, across walks
 and drives, is very delightful.

PANSIES

Pansies have always been a great specialty with us and we are justly proud of the quality and trueness to type of our strains. Pansies succeed best in rich, well-drained soil in a sunny position, and produce their finest flowers in the cool, early days of spring. Keep flowers picked during the summer, plants pinched back, and you will get a nice lot of flowers again in the fall. For earliest blooms, seed indoors. Buy our hardy plants. 75c dozen.

In February or March sow seeds lightly in rows in greenhouse, hotbed, or window box, and when plants have reached a height of 3 inches, transplant in hotbeds. About June 1 set out in open ground, 3 feet apart, giving plenty of well rotted manure to each plant. Water freely during hot weather. To obtain the best results, trellises or stakes should be used.

For Your Information

While we aim to have in stock all varieties of vegetable seeds grown in this part of the country, there may be some which we do not stock because of small demand. These we can get for you on short notice from our regular sources of supplies. We strive to please our customers, and this is one of the many services we can render you.

There are also many plants which are grown in southern sections which will not prove practicable in this locality. If you have any questions about plants or vegetables of any kind we will be glad to advise you.

Add 3% Sales Tax to all items on this page.

BUSINESS TERMS AND HOW TO ORDER

All prices in this catalog are for cash f.o.b. Wenatchee. Mail orders sent C. O. D. when not accompanied by cash. Be sure to include 3% State Sales Tax, and transportation charges.

Unless otherwise requested, your order will be sent parcel post, unless too large, then by stage or express collect. The average postage on small orders amounts to 10c to 15c, larger orders, 20c to 50c. Orders sent out within twenty-four hours.

We reserve the right to ship orders at the proper season for planting, if ordered too early, unless shipment is demanded. Everything in the catalog cannot be shipped at once.

Any errors, or claims for refund, must be made within 24 hours of receipt of merchandise.

OUR GUARANTEE

While we exercise the greatest care to have all our stock run true to name, however, it is mutually understood and agreed to between the purchaser and ourselves that should any stock prove untrue, we shall in no case be liable for any sum greater than that originally received for such stock that may prove untrue, besides, we will not be responsible for the crop. All orders are booked only under the above conditions.

**HOES, RAKES, CULTIVATORS and
WEEDERS**

at Moderate Prices.

The use of proper garden tools will enable you to grow a better garden with less labor and add to the enjoyment of producing a much needed supply of food.

How to Have a Good Lawn

Spade the ground as deep as possible and turn several times to see that it is thoroughly pulverized. Sheep guano or peat moss will add humus and improve the seed bed. Rake level and water thoroughly so the ground will settle. The seed bed should be allowed to stand for about two weeks, watering from time to time so the weed seeds will sprout.

Roll the ground before seeding, to prevent it from settling unevenly, and then rake the surface lightly. Sow the seeds so as to cover the ground thoroughly, and then cover it lightly with soil. Roll again so as to press the seed in firmly.

PETAMINE

A Complete Balanced Diet to be Fed Daily Throughout the Year.

What Petamine does for Canaries: Peps them up, increases song; adds color and sheen to feathers, and keeps them in fine, vigorous condition.

Restores lost song and feathers and cures many ailments when due to faulty diets.

Makes moulting easier and faster and plumage more brilliant and colorful.

Works wonders during breeding season, produces more fertile eggs, finer, sturdier young birds.

Petamine may be used as the exclusive diet or with mixed whole seeds. Recommended for all cage birds. 25c. Net weight, five ounces. Also 65c lb.; 2 lbs., \$1.20.

Hints on Care of Goldfish

Should the fish show signs of having fungus, or become logy, a salt bath will bring them out of it; or should the fish come to the top for air it shows there are too many fish in the bowl or aquarium.
